

80 HOURS

Advanced Mentor Coach Program

Our most complete mentor coach training,
designed to meet the ICF Advanced Accreditation in
Mentor Coaching standard.

For coaches who want to mentor across every credential level,
with the assessment depth and supervised practice the standard
demands.

The full craft.

Who this is for

Coaches ready to become mentor coaches across the full range of practice, and to do the deep assessment work that mentoring at every level demands.

ELIGIBILITY TO ENROL

A current ICF credential

A current PCC or MCC. You bring senior coaching experience to the mentoring role, which is what reading and mentoring across credential levels demands.

WHAT THIS PREPARES YOU TO DO

Mentor across ACC, PCC, and MCC

The program prepares you to read and mentor coaching at every credential level. What you may formally mentor toward still depends on your own credential.

THE DEPTH

This is where cross-level calibration lives, the hardest judgment in mentoring, telling whether a session is truly ACC or PCC and holding that line consistently. It is the work our calibration library exists to teach.

The program at a glance

DESIGNED TO MEET THE
ICF AAMC STANDARD

This program is built to the published AAMC standard. It is not yet accredited. Our application is in progress.

Eighty hours. The fullest teaching depth, evaluation-tool fluency, cross-level calibration, and the heaviest supervised practice we offer.

01 The full teaching, deepened

All six mentor coaching competencies, taught at flagship depth.

02 Core Competency Deep Dive

Advanced application of the ICF Core Competencies across credential levels.

03 Evaluation Tool Training

ACC BARS and PCC Markers, taught in-house inside our calibration environment.

04 Cross-level Calibration

THE HEART OF THE FLAGSHIP

The ACC to PCC boundary, calibrated against real assessor judgment.

05 Supervised Practice

Two triads, mentoring real coaches across the five observed sessions the standard requires, and six hours of mentoring on your own mentoring.

06 Capstone

A portfolio review of your readiness to mentor, assessed against a rubric with a development plan.

THE DIFFERENCE

Why Elevate Life

Most courses teach the model. We train your eye against it.

The hard part of mentor coaching is not knowing the competencies. It is judging, consistently, whether a real coaching moment meets the standard, then giving feedback that helps. This program builds that judgment directly. You appraise real sessions, compare your rating against an experienced assessor's, and work through where and why coaches disagree. At the flagship level you calibrate across credential levels, the rarest and most valuable skill in mentoring, and the one no model on its own can teach.

The pathway, honestly

STEP 1

YOU ARE HERE

This program

Built to meet the ICF AAMC standard in full: the hours, the synchronous balance, the observed sessions, the mentoring on mentoring, and the capstone.

STEP 2

Evaluation tool training

ACC BARS and PCC Markers, taught in-house. MCC BARS verified through ICF. Aligned to the levels you prepare to mentor.

ABOUT THE ACCREDITATION

The Advanced Accreditation in Mentor Coaching is granted by ICF to programs that apply and are approved. Our application is in progress. Until it is granted, we describe this program as designed to meet the standard, never as accredited. We will tell you exactly where the application stands before you enrol.

For you, the most complete mentoring craft we teach, with the MCS pathway within reach, since the Standard Pathway hours sit inside this program. When accreditation is granted, this becomes the accredited route.

WHO YOU LEARN WITH

Your facilitator

Adnan Hussain

ICF PCC

Adnan Hussain, ICF PCC. Founder of Elevate Life Training and Coaching. MBA, IBA Karachi.

From coaches Adnan has mentored

"I found the mentor session really productive and helpful. Thank you for your time and insights."

Keshav

"I learned to ask questions that evoke awareness, rather than opening the door for me to give advice."

Mary

"Honest, clear, and incredibly supportive. His feedback was both direct and encouraging, helping me see my strengths while identifying specific areas for growth. I left energized, focused, and excited to continue developing as a coach."

Tiffany Garcia, ACC, BCC
